

MacKillop Farm Management Group

Grain and Graze Field Day

 **Thursday 24 September 9.00am to 1.00pm**

 **Josh Savages farm, Western Flat (Coordinates -36.4592692, 140.6863465)
then Western Flat Hall, 2600 Naracoorte Road, Western Flat**

Visit MFMG Trial and Demonstration Sites

Join researchers and fellow farmers for the **Grain and Graze Field Day** in the upper Limestone Coast.

Hear from researchers on MFMG trial and demonstration sites - including the **MLA GRDC Legumes in Mixed Farming Rotations Project**. For this, we'll examine the impact of nitrogen under three treatments of vetch.

We'll also check the progress of the **GRDC Getting the most out of your Barley in mixed farming systems trial**, and canola crops as part of the **SA Drought Hub Improving Crop Establishment in the upper Limestone Coast project**.

Owen Rees, Total Result Ag Consulting (TRAC) Ruminant Productivity Consultant will present on using legumes for livestock production.

Join us!

- See the latest mixed farming trial results.
- Hear practical advice from researchers and experts.
- Learn how to improve crop and livestock performance.
- Connect with local farmers and share ideas.

SA Drought Hub Improving Crop Establishment in the upper Limestone Coast.

This program received funding from the Australian Government's Future Drought Fund through the South Australian Drought Resilience Adoption and Innovation Hub (SA Drought Hub).

SOUTH AUSTRALIAN DROUGHT RESILIENCE ADOPTION AND INNOVATION HUB
